

<u>Project code</u>	<u>Name of project</u>	<u>Senior researcher</u>	<u>Scientific area</u>
082-0822156-2998	Human resource management in construction	Cerić Anita	technical science
082-1102147-2153	Road Traffic Noise Monitoring and Mitigation Measures	Dragčević Vesna	technical science
082-0821466-1469	The Optimization of Reliability in Frame Systems with Different Types of Joints	Dujmović Darko	technical science
082-0821466-1467	The Application of Reliability Methods for the Purpose of Developing Structures	Džeba Ivica	technical science
082-0000000-3243	Development and application of fluid transport models	Gjetvaj Goran	technical science
082-0000000-2991	Development of IT in Croatian Construction Companies	Izetbegović Jadranko	technical science
082-0822161-2187	Testing and modelling of improved soils and rocks	Kovačević Meho-Saša	technical science
082-0000000-3246	Interaction of hydromelioration systems and environmental factors	Kuspilić Neven	technical science
082-0000000-2185	Noise and vibration of tram and railway tracks	Lakušić Stjepan	technical science
082-1201829-2166	Nonstandard models of building structures	Lazarević Damir	technical science
082-0982562-3160	Quantum computation: Parallelism and visualisation	Pavičić Mladen	natural science
082-0822994-2175	Environmental impact to the shape and dimension of hydrotechnic constructions	Pršić Marko	technical science
082-0822156-2993	Risk and change management in project oriented construction business	Radujković Mladen	technical science
082-1491823-1463	Composite structural systems timber-structural glass and timber-steel	Rajčić Vlatka	technical science
082-0821504-1496	Development of Experimental Methods of Civil Engineering Structures Researching	Rak Mladenko	technical science
082-1102147-2143	Asphalt pavements performance modelling	Rukavina Tatjana	technical science
082-0822161-2996	Modern methods for testing building materials	Skazlić Marijan	technical science
082-0822161-2990	FROM NANO TO MACROSTRUCTURE OF THE CONCRETE	Štirmer Nina	technical science
082-0822156-2992	Productivity Optimisation in Project Oriented Systems in Construction	Završki Ivica	technical science
