

MEMORANDUM OF UNDERSTANDING

Between

University College Cork
Ireland

and

Faculty of Civil Engineering - University of Zagreb
Croatia

This non-binding Memorandum of Understanding signifies mutual interest in the promotion and development of joint research and teaching projects in the area of Engineering. Where financially feasible and consistent with policies of the School of Engineering – University College Cork and the Faculty of Civil Engineering – University of Zagreb, the parties agree to pursue mutual interest in the following types of activities:

1. Collaboration in the research area and academic programmes, especially on the postgraduate level.
2. Long-term and short-term exchanges of faculty staff, including sabbaticals, research professorships, research collaboration, supervision of thesis, and other activities.
3. Exchange of educational and scientific publications, data and materials designed to support the research and academic programmes.
4. Organisation of distance training, international conferences and workshops, such as courses and other events.
5. The collaboration between the parties will be structured on a project-by-project basis. The two parties will commit their own resources as available and appropriate, or stipulated, but in general the projects will be funded from external sources.
6. For the purpose of financing mutual activities stated here, the parties agree to collaborate to identify and win financial support from international sources.

This understanding will remain in effect until one party notifies the other of its wish to terminate the agreement. Where necessary, the Parties will enter into legally binding agreements for specific activities envisaged herein.

The institutional coordinators to facilitate the implementation of this Memorandum of Understanding are Dr. Eamon McKeogh for the University College Cork and Dr. Damir Bekić for the University of Zagreb.
