

University of Zagreb FACULTY OF CIVIL ENGINEERING	
Research Theme Proposal Form	
POST-GRADUATE UNIVERSITY STUDIES FOR ACQUIRING THE ACADEMIC DEGREE OF DOCTOR OF SCIENCE Doctoral studies in CIVIL ENGINEERING	
GENERAL INFORMATION ABOUT THE CANDIDATE <i>(required fields)</i>	
First and last name	
E-mail	
PROPOSED THEME AND MENTOR <i>(required fields)</i>	
General theme of research	
Prospective mentor¹ <i>(title, first and last name, institution)</i>	
CLARIFICATION OF THE PROPOSED RESEARCH THEME	
<i>Although this clarification is advisable, it is not a required field in this application. This information can be provided partially, i.e. using data the candidate has at the moment of filling-in the application. No more than 3000 words may be used to clarify the proposed research.</i>	
Theoretical basis for the research and overview of research made so far in the proposed area	
Subject of research	
Research methodology and plan	
Participants in research	
Literature list²	
Proposed research funding sources³	
SIGNATURE <i>(required field)</i>	
Candidate's signature	

¹ If you have established contact with your prospective mentor and if the latter has generally agreed to be your mentor. If you have not yet found a prospective mentor, please specify if you have discussed the matter with someone. For the final enrolment to doctoral studies, the candidate needs a signed recommendation from the prospective mentor with a tentative description and working title of the wider area to be covered by doctoral thesis.

² List of quoted literature and literature the candidate has used in the preparation of research proposal.

³ Specify possible sources of funding for this research and whether you have obtained a general approval from the prospective mentor.
