

Benjamin Šimović
univ.mag.ing.aedif.

Master of Civil Engineering (graduated from the University of Zagreb, specializing in Hydraulic Engineering, 2013), and became a member of the Chamber of Civil Engineers in 2016. He began his professional career as a designer on water supply and sewerage infrastructure projects (Supernova Center Zadar, Jazine waterfront development, water and sewage system of Dubrovnik Old Town, 2014–2017). He then worked for the company Jan De Nul on subsea energy cable installation projects (NASR Cable Project, UAE), and offshore wind turbine installation (Borkum WindFarm project, Germany; Formosa 1, Taiwan) between 2017 and 2019, serving as Quality Control Manager. After that, he joined the oil and gas industry as Site Lead Engineer on the refinery upgrade project in Rijeka for INA (until 2023). He is currently employed as a Works Manager on the Fehmarnbelt undersea tunnel project between Denmark and Germany.
