regarding cooperation

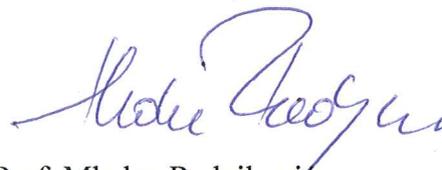

In order to promote research cooperation and friendly relations between both parties, in behalf of which Civil Engineering Faculties act, it is stipulated that common activities may take the form of student and staff exchange, research grants application and research cooperation. These activities shall be carried out as follows:

- § 1 Both Universities may accept exchange students to study for the period of up to one academic year.
- § 2 Students participating in the exchange programme (sent abroad and accepted at our university) are chosen according to the rules and procedures of both universities and their cooperation agreement.
- § 3 The host University will issue a Transcript of Records (TR) to exchange students after they have completed the course mentioned in § 1.
- § 4 The research cooperation shall be centered on, but not limited to, research on: building materials, concrete structures (including reinforced and prestressed ones), metal structures, bridge and tunnel design theory, energy efficient building design, design and maintenance of intelligent buildings, traffic engineering and transportation problems, structural mechanics and dynamics, computer aided design, numerical methods in structural engineering, construction management, and project management.
- § 5 Both Universities may apply for common research grants, to further facilitate the research cooperation envisaged in § 4.
- § 6 This Agreement shall come into effect on October 1st, 2010 and be valid for an unlimited period of time, revocable by three month notification to the other party.
- § 7 This agreement has been executed in six equal copies, two of them in English language, two in Croatian language, and two in Polish language. Each party shall retain one copy of the said original Agreement in each language. All texts are equally authentic.

In witness thereof, the parties have offered their signatures hereto:
