### **Article 21**

(1) Chairs and laboratories are established within departments.

(2) A chair is an organisational unit of a department where expert, scientific and educational activities are performed.

(3) A chair can be formed if it organises and implements courses at undergraduate, graduate and postgraduate study programs.

(4) Laboratories are organisational units where research related to the activities of the Faculty is carried out.

### **Article 22**

Departments of the Faculty with their Chairs are as follows:

1. Geotechnical Engineering Department
  - 1.1. Chair for Soil and Rock Mechanics
  - 1.2. Chair for Geotechnical Engineering
  - 1.3. Geotechnical Laboratory
2. Water Research Department
  - 2.1. Chair for Basic Hydraulic Engineering
  - 2.2. Chair for Water Management
  - 2.3. Chair for Sanitary and Environmental Engineering
  - 2.4. Hydraulics Laboratory
3. Structures Department
  - 3.1. Chair for Concrete and Masonry Structures
  - 3.2. Chair for Timber Structures
  - 3.3. Chair for Metal Structures
  - 3.4. Chair for Bridges
4. Mathematics Department
  - 4.1. Chair for Geometry and Physics
  - 4.2. Chair for Mathematics
5. Materials Department
  - 5.1. Chair for Materials Research
  - 5.2. Chair for Materials Technology
  - 5.3. Materials Laboratory
6. Construction Management and Economics Department
  - 6.1. Chair for Management
  - 6.2. Chair for Construction Organisation
  - 6.3. Chair for Construction Technology
7. Transportation Engineering Department
  - 7.1. Chair for Roads

7.2. Chair for Railways

7.3. Transportation Engineering Laboratory

8. Engineering Mechanics Department

8.1. Chair for Mechanics of Materials and Stability of Structures

8.2. Chair for Statics, Dynamics and Stability of Structures

8.3. Structures Research Laboratory

### **Article 23**

An independent chair can be formed if a course is organized and implemented at undergraduate and graduate level of study programs, given that this kind of course is not organized and performed within chairs which are constituents of departments.

### **Article 24**

Scope of activities of an independent chair includes:

1. organisation and implementation of educational, scientific and professional activities
2. participation in making of the budget of the Faculty
3. participation in making of the investment plan of the Faculty
4. taking care of professional development of employees, particularly assistants and associates
5. discussing and giving opinions and suggestions on the matters laid out by the Faculty bodies.

### **Article 25**

Chair for Buildings is an independent chair.

### **Article 26**

(1) Department of Shared Services is an organisational unit of the Faculty performing legal, administrative, financial, accounting, library, IT, technical and other general affairs.

(2) Department of Shared Services is divided into: secretariat with student administration office, accounting office, library, computer lab and technical support office.

### **Article 27**

Internal organisation of the Faculty is regulated by the General act adopted by the Faculty Council, confirmed by the Senate.

## **V MANAGEMENT AND ADMINISTRATION OF ORGANISATIONAL UNITS OF THE FACULTY**

### **Article 28**

(1) The dean organizes and manages the business of the Faculty.

(2) Vice-Deans and the Secretary of the Faculty assist the Dean in his or her work.

(3) Departments are managed by their relevant heads. The chairs and the independent chair are also managed by their relevant heads, so as the laboratories.

### **DEAN**

### **Article 29**

(1) Dean shall be elected from academic ranks of associate, full and tenured professor.

(2) Insignia of the dean's authority shall be the chain.

(3) The Dean:

1. is authorised to represent the Faculty
2. makes business decisions in accordance with the regulations
3. chairs the Council meetings and proposes the agenda
4. is the member of the Field Studies Council and the University Senate
5. proposes measurements for the development of the Faculty to the Council
6. executes decisions of the Council, the Senate and the Field Studies Council related to the Faculty
7. performs other duties pursuant to the Act, this Statute and the Statute of the University

(4) For his or her work, the Dean is responsible to the Council and the Rector and is obliged to submit an annual report on the activities and business of the Faculty, and the report on his or her own work, including the report on the proposed budget of the Faculty and its implementation.

### **Article 30**

(1) The Rector supervises the legality of the Faculty's activities and controls whether they are in accordance with the University and the Faculty Statute.

(2) The Rector is obliged to inform the Dean and the Council about the activities and decisions contrary to the Act or the Statute of the University in writing.

(3) The Rector is authorised to suspend the execution of all decisions made by the Dean or other Faculty bodies, if they are contrary to the Act or the Statute of the University.

(4) If the Act or the Statute of the University, or other laws, bylaws and regulations are gravely and persistently offended, the Rector may suspend the Dean of the Faculty and appoint an acting dean. The Senate is obliged to make a decision concerning suspension with the two-thirds of the entire membership votes within 30 days. If the suspension is confirmed, the Dean is relieved of his or her duty pursuant to the Statute of the University and the election of the new dean will be carried out within 3 months. The suspended Dean cannot be the candidate for the new election process.

## **Article 31**

(1) The election procedure shall start with the Council's invitation for nominations at the beginning of the calendar year in which the term of office of the incumbent Dean expires. At the meeting convened by the Dean, lecturers with ranks of associate, full and tenured professor can nominate one or more candidates for the position. Candidates submit their CVs and work plan and present them orally to the Council. Nominations approved by the Council are forwarded to the Senate. On Rector's proposal, the Senate then makes a decision about the submitted request within 30 days. The Rector and the Senate must justify their decision if they have denied the approval. The Council shall elect the dean by a secret ballot among the candidates approved by the Senate. The candidate preferred by a majority of all Council members shall be elected dean.

(2) If there are two candidates and none gets a majority in the first ballot, there is a runoff at the same meeting and it shall be voted for the candidate with a majority from the first ballot.

If the candidate does not win the sufficient number of votes in the second round, the election procedure will be repeated.

If both candidates win the equivalent number of votes in the first round, they both proceed to a second round. If they win the same number of votes in the second round, the election procedure will be repeated.

If both candidates win the equivalent number of votes in the first round, they both proceed to a second round. If one of the candidates wins a higher number of votes, but not sufficient for winning, the third round will be run only for the candidate with the higher number of votes from the second round. If the candidate does not win the sufficient number of votes in the third round, the election procedure will be repeated.

(3) If there are more than two candidates and none of them wins the sufficient number of votes in the first ballot, there is a second round at the same meeting, repeated for the two candidates with the highest number of votes in the first round. If three or more candidates win an equivalent number of votes, two among them are elected for the second round. If two or more candidates in the first round win the second highest number of votes, one of the candidates is elected for the second round. If the dean is not elected in the second round, the candidate with the highest number of votes from the second round runs for the third round. If two or more candidates have the equivalent number of votes in the second round, one of the candidates is elected for the third round. If the candidate does not win the sufficient number of votes in the third round, the election procedure will be repeated. The election procedure must be finalised four months prior the beginning of the term of office of the elected dean.

(4) The Electoral Commission appointed by the Council is in charge of the implementation of the election procedure. The Committee shall consist of three members, one of them a student.

(5) If the new dean is not elected before the term of office of the incumbent Dean expires, the Council will propose a candidate for a position of an acting dean to the Senate within 30 days. The Senate will appoint an acting dean upon the Rector's approval within 30 days.

(6) If the Council does not submit the nomination within the prescribed deadline, an acting dean will be appointed by the Senate upon the Rector's nomination.

## **Article 32**

(1) The Dean may be relieved of duty before the expiration of the term of office if he or she:

1. submits a resignation
2. does not fulfill his or her duties
3. gravely and persistently offends the provisions of this Statute, the Statute of the University or other laws, bylaws and regulations
4. abuses his or her function
5. violates the reputation of his or her duty
6. loses the ability to perform the duty.

(2) Procedure of dismissal is initiated by the decision of the Council made by a majority of the Council members.

(3) The Council implements the procedure and decides on dismissal by a majority of the Council members within two months from the initiation of the procedure

(4) Before the decision is made, the Dean must be given the opportunity to explain the reasons which led to his or her dismissal, except in the case of losing his or her ability to perform duty.

(5) If the Rector suspends the Dean for offending the provisions of the Statute, the Statute of the University or other laws, bylaws and regulations, the decision on the suspension is confirmed by a two thirds majority of the Senate members within 30 days of the Rector's suspension. If the Senate confirms the suspension, it is considered that the Dean is relieved of his or her duty on the day the decision on the suspension was made.

(6) If the Dean is suspended, the Senate will appoint an acting dean until a new dean is elected. The electoral procedure is implemented according to the Statute of the University and this Statute. The suspended Dean cannot be nominated in the new election procedure.

(7) The suspended Dean has the right of action in order to protect his or her rights if he or she considers the procedure has been violated and the violation might have a considerable impact

on the decision or that there has been no cause for suspension as referred to in the paragraph 5 of this Article.

### **Article 33**

(1) The Dean shall be elected for a two-year term of office. The Dean assumes his or her duties on the first day of the new academic year.

(2) If the electoral procedure is implemented as referred to in the Article 31 paragraph 5, i.e., Article 32 paragraph 6 of this Statute, the elected Dean assumes his or her duties on the first day after the completion of the electoral procedure and his or her term of office lasts until the expiration of the stipulated term of office.

(3) The same candidate can be elected two consecutive times.

### **Article 34**

The Dean may appoint persons, i.e., committees to deal with particular issues in his or her scope of activities by a decision specifying the term of appointment, the scope of work and other questions relevant to work of the appointed bodies.

### **Vice-Deans**

#### **Article 35**

(1) The Faculty has a Vice Dean for Science, Vice Dean for Financial Management, Vice Dean for Education and Vice Dean for International and Inter-institutional Cooperation.

(2) The candidates are nominated by the Dean and elected by the Council, usually before the academic year in which their term of office shall begin.

(3) A Vice Dean is elected by a majority of the Council members.

#### **Article 36**

(1) For a position of a Vice Dean shall be elected a lecturer with the academic rank of associate, full or tenured professor.

(2) The term of office of a Vice Dean is equivalent to the term of office of the Dean who appointed him/her.

### **Article 37**

(1) A Vice Dean may be relieved of duty before the expiration of his or her term of office for the same reasons as the Dean.

(2) The Dean submits the proposal for the relief of duty of a Vice Dean.

(3) The Council elects a new Vice Dean and makes the decision on the relief of a Vice Dean at the same time.

### **Article 38**

The Vice Dean for science:

1. convenes and chairs meetings of the Science Committee
2. coordinates scientific activities of the Faculty
3. supervises the use of scientific infrastructure and equipment

(3) Permanent working bodies of the Council are as follows:

1. Educational Committee
2. Scientific Committee
3. Degree and final exams Committee
4. Textbooks, scripts and publications Committee
5. Professional development in Civil Engineering Committee
6. Quality Assurance Committee
7. Student Disciplinary Tribunal

## **Article 59**

The Council adopts rules of procedure for its own work, regulating matters which are not regulated by the Act, the Statute of the University and this Statute.

## **VII FACULTY EMPLOYEES**

### **Article 60**

(1) Employment contracts can be concluded with persons appointed into academic ranks, educational ranks, associate ranks, professional ranks and other persons working for the Faculty in the scope of its activities.

(2) Employment status is regulated by general acts on work and collective agreements, unless the Act, the Statute of the University and this Statute define it differently.

### **Article 61**

(1) The academic ranks are: assistant professor, associate professor, full professor and tenured professor.

(2) Lecturers and senior lecturers can teach courses outside the field of civil engineering, basic technical sciences and interdisciplinary technical sciences.

(3) The associate ranks are: assistant and postdoctoral researcher.

(4) The professional ranks are: expert associate in science and higher education system (completed graduate university study), senior expert associate in science and higher education system (completed graduate university study and minimum of five years of professional experience) and expert advisor in science and higher education system (completed graduate university study and minimum of ten years of professional experience).

(5) Faculty can have other expert ranks if employees in the relevant ranks and work places are paid for from the Faculty's own funds.

### **Article 62**

Requirements for selection, duration of term of office and scope of activities conducted by lecturers (academic and educational ranks) and associates are regulated by the Act, bylaws, Statute of the University and the Faculty and other general acts of the University and the Faculty.

## **Selection Procedure for Ranks and Working Positions**

### **Article 63**

(1) Selection process for academic, educational, expert and associate ranks and relevant work positions is carried out based on a tender published in the Official Gazette, daily newspapers, web pages of the Faculty and official web page of the European Research Area. A tender must be opened for at least 30 days.

(2) A tender must include:

1. the name of the faculty
2. area, field and branch for which the tender is opened
3. rank and workplace for which the tender is opened
4. requirements which applicants have to meet
5. deadline for submitting applications
6. list of necessary attachments to the application
7. deadline for notice on the outcome of the tender

(3) Only tenders for workplaces regulated by the Act on internal organisation of the Faculty and approved by the Senate can be announced. The Faculty must procure relevant approvals for tender announcements. Tenders are in this case financed by the University.

(4) The Faculty may announce tenders which are not regulated with the paragraph 3 of this Article, if the funds are already assured.

(5) Regulations of this Article will be applied to employment on workplaces of other employees.

## **Article 64**

(1) Selection process for academic, educational, associate and professional positions and selection process for nominal ranks is initiated by the Council. The process of acquisition of an academic rank can also be initiated by the person who believes he/she meets the requirements for the relevant rank.

(2) If the Faculty is authorised for implementation of the selection process, the procedure is conducted by the Council.

(3) If the Faculty does not have the authorisation for implementation of a part of the selection process for scientific ranks, according to the Act, selection process for scientific ranks is conducted by an authorised council, and the selection for educational ranks and work positions is conducted by the Council.

(4) The authorised council must within 30 days of the tender announcement appoint an expert panel consisting of three members, at most two of them members of the authorised council. Council members must be the same or higher rank than the one in the process of selection.

(5) If for some candidates in the selection process for relevant academic ranks and workplaces the selection process for the relevant rank also needs to be implemented, the authorised council, based on the report and the proposal of the committee, forwards the proposal and the opinion on the selection process for relevant rank to the relevant committee.

(6) Upon decision of the relevant committee, the authorised committee submits the report to the Council, stating which applicant or applicants have been proposed for the appointment into academic ranks and the relevant working positions.

(7) The Committee submits the report with proposed applicants for the appointment into relevant ranks and workplaces to the Council in case none of the applicants for the appointment requires implementation of the selection process for relevant scientific ranks.

(8) On a workplace of an assistant professor shall be elected a candidate with an academic rank assistant professor. On a workplace of an associate professor shall be elected a candidate with an academic rank associate professor and at least five years of professional experience in a workplace of an assistant professor or a scientific position of a research associate. On a workplace of a full professor shall be appointed a candidate with an academic rank of a full professor and five years of professional experience in a workplace of an associate professor or at least a scientific position of a senior research associate and on a workplace of a tenured professor a candidate with an academic rank of a tenured professor and at least five years of professional experience in a workplace of a full professor or scientific position of a senior research fellow.

(9) If a candidate fulfills all requirements necessary for the appointment into a higher academic workplace, approved by a special decision of the Council and with the approval of the employees, tenders for the appointment into workplaces of associate and full professor can be announced before prescribed time period, but not before three years of previous appointment on a workplace of a lower rank expire.

(10) Aside the selection process for ranks of full and tenured professor, which shall be approved by the Senate, the Field Studies Council approves the selection process for the appointment into academic ranks, making the selection process legally valid.

(11) All candidates applied for the selection process and relevant working positions shall be informed about the results of the selection procedure 15 days upon its completion.

(12) If the Senate or the Field Studies Council do not approve the selection, the selection process will be annulled.

## **Selection Procedure for Educational and Professional Ranks and Relevant Working Positions**

### **Article 65**

Article 64 of this Statute regulates the selection process for educational and professional ranks and relevant working positions.

### **Associate Ranks and Relevant Working Positions**

#### **Article 66**

- (1) Associate ranks and relevant positions are assistant and postdoctoral researcher. Assistants and postdoctoral researchers are selected from the group of the most successful students.
- (2) Assistants and postdoctoral researchers help in the implementation of a part of the educational process, examinations, scientific and professional activities of the Faculty.
- (3) A person with a completed master's degree can be appointed to the rank of an assistant by the Faculty and the Faculty shall conclude a fixed-term contract of employment in duration of six years for an associate workplace of an assistant. An assistant is obliged to enroll in the postgraduate university study (a doctor's degree).
- (4) Work of associates is assessed annually by the Council, based on the written report made by the mentor assessing associate's scientific and educational work and his or her success in the postgraduate studies.
- (5) A person with a completed doctor's degree and postgraduate university study can, based on a tender, be appointed into a workplace of a postdoctoral researcher and conclude a fixed-term contract of employment in duration of four years with the Faculty.
- (6) At least once in the period of two years, postdoctoral researchers submit a report on their work to the Council, which evaluates their performance in scientific and educational work.
- (7) Content, criteria and process of adopting the report from paragraphs 4 and 6 of this Article are regulated by legal acts of the Faculty.
- (8) If the Council gives a negative evaluation of the report for the second time, the Faculty may terminate a labour contract of an associate or a postdoctoral researcher (ordinary termination, dismissal on the ground of misconduct).
- (9) At least once in a period of two years, the Council evaluates the mentor based on the report on work and report of the assistant on his or her mentoring.
- (10) A mentor with two negative evaluations cannot be appointed as a mentor again.
- (11) Criteria of evaluation and appointment of mentors are regulated by general acts.

### **Employment Contract and Other Relevant Contracts**

## **Article 67**

- (1) The Faculty shall conclude permanent employment contracts with persons appointed to academic, educational and professional workplaces, with the obligation of implementing re-election or election process for appointment to higher ranks or workplaces.
- (2) Re-election process for academic, educational and professional workplaces, apart from the position of tenured professors, is conducted by submitting a report of a Technical Committee to the Council every five years. The technical Committee consists of three members with the same or higher rank and relevant workplace than the candidate. At least one of the members of the Committee shall not be an employee of the Faculty.
- (3) The form of the report and minimal conditions of work responsibilities on which the report referred to in paragraph 2 of this Article is submitted are prescribed by the National Council for Science, Higher Education and Technological Development. The process of deciding on the report is prescribed by the General act of the Faculty. Additional requirements can also be prescribed.
- (4) If the Council does not accept the report on work, i.e., accepts negative evaluation of the report, according to paragraph 3 of this Article, two years from the relevant decision the selection procedure shall be repeated according to paragraphs 2 and 3 of this Article.
- (5) If the Council does not accept the report from paragraph 4 of this Article, the Dean initiates the process of cancelling a labour contract (dismissal on the ground of misconduct) according to general regulations and general acts of the University and Faculty.
- (6) Obligation to conduct the re-election process is void in case of an appointment to the academic work position of tenured professor.
- (7) Employment contracts of employees in academic, educational and expert positions shall be terminated upon the expiry of the academic year in which he/she reaches the retirement age of 65.
- (8) With the exception of paragraph 7 of this Article, if there is a need for continuation of the work of an employee on an academic work position, the Faculty can, with the employee meeting the requirements of excellence, conclude a fixed-term labour contract for additional two years with the possibility of extension, but only until the expiry of the academic year he/she reaches 70. Excellence criteria for the selection procedure are prescribed by the National Council for Science, Higher Education and Technological Development. Additional criteria can be prescribed by general acts of the University.
- (9) The decision on fulfilling the criteria of scientific excellence referred to in paragraph 8 of this Article is based on the report of the Technical Committee of the authorized Council, which consists of at least three members with the same or higher academic rank from the candidate and at least one of the members shall not be an employee of the Faculty. The decision is made

by the relevant Board. For a candidate for an academic work position, the Technical Committee submits the report on fulfilling the criteria of educational excellence, approved by the National Council for Science, Higher Education and Technological Development.

(10) In case the funds for salaries of employees referred to in paragraph 7 of this Article are assured from assigned revenue of scientific or expert projects or from the funds of the Faculty, the Faculty can extend the employment outside restrictions from paragraph 8 of this Article. Scientific contribution, success in the educational process and education of young scientists and lecturers shall be particularly appreciated.

### **Article 68**

Department of Shared Services is obliged to inform the employees due for re-election process at least three months prior the expiry of their terms of office.

## **Professor Emeritus**

### **Article 69**

(1) Honorary rank of professor emeritus is awarded to retired tenured professors.

(2) Candidates for the rank of professor emeritus will be those who have greatly contributed to the development and advancement of the University and enjoy national and international recognition of their scientific, professional and educational contribution.

(3) Professor emeritus shall have an advisory role at the Faculty.

(4) Professor emeritus may participate in research or implementation of courses in the university post-graduate studies, may be a member of selection committees for appointment to academic ranks and procedures of obtaining doctor's degrees in science, and, exceptionally, by the special decision of the Council or the Field Studies Council, may be a mentor of a doctoral dissertation or a specialist thesis in the postgraduate specialist study.

(5) Methods of nomination and selection procedure, selection criteria and rights and obligations of a professor emeritus shall be regulated by the Senate and the Council. These regulations shall determine the possible number of nominees for the honorary rank of professor emeritus at a certain period of time.

### **Distinguished Professor**

#### **Article 70**

(1) Honorary rank of a distinguished professor is awarded to retired full professors with tenure. A distinguished professor may not participate in education implementation and in selection committees for appointment to the ranks or committees for obtaining a doctor's degree in science.

(2) Methods of nomination and selection procedure, selection criteria and rights and obligations of a distinguished professor are regulated by a general act of the Council.
